

# MÖRSE MIXER

FORCED ACTION  
MIXERS

120 LTR

DATA SHEET

### FEATURES & BENEFITS

- European design and engineering
- Select from 100 ltr or 120 ltr, with a choice of 110 volt or 240 volt motor for both options
- Drum size equals the full mixing capacity - a 100 ltr drum gives a 100 ltr mix
- Integrated trowel holder
- Tapered pan design for effective mixing with an extra wide chute to ensure fast emptying
- Lid incorporates a cut-out switch for extra safe operating
- Durable galvanised pan for an increased life span
- Large wheels and adjustable legs for optimum use in construction site environments
- Three serrated bag splitters on hinged lid for clean, speedy filling
- Empty into a bucket stood on the hinged frame; or hinge the frame up and empty into a barrow which can be positioned right under the delivery chute
- Ergonomically designed frame makes it easy to tip mixer on its back - great for loading into a small van or truck
- Complete arm and blade assembly easily removed to facilitate cleaning
- Four arms with large paddles for fast and efficient mixing
- On/off switch for motor fully protected in all environments
- Chute guard removable for an easy-clean
- Reinforced back axle designed for heavier loads
- Height adjustable legs for compatibility with site barrows
- Balance wheels for easy loading

### WHAT IT MIXES

- Resin bound gravel
- Rubber crumb/softfall material
- Tiling compounds
- Resins & polymers
- Concrete repair materials
- Self-levelling compounds
- Fillers
- Plaster
- Mortar
- Screed

### PRODUCT CODES

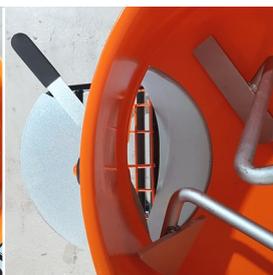

110 volt                      23-4002  
 Also available in 240 volt for EU and other global markets, please enquire for further details
